COMSYS is pleased to announce the 2nd Edition of the COMSYS Maritime VSAT Report. This latest study offers complete and detailed coverage of the maritime VSAT market following five months of intensive research and 130 interviews with VSAT operators, MSS service providers, industry insiders, maritime experts, hardware vendors and maritime industry associations.

The report provides information on the current level of VSAT penetration into the stabilised antenna service business covering the current and prospective stabilised antenna manufacturers, market shares of the major operators, systems in use and market segmentation. Distinction is drawn between the oil & gas and maritime segments of the market.

Building on the already-extensive knowledge base within COMSYS, we have built a maritime VSAT database with details of vessels and rigs in service with more than 100 operators worldwide. The report draws on this data to offer an unrivalled view of the how this market has developed over the past five years and the trends and demands that are driving it forward today.

Almost 120 pages containing 44 tables and 83 figures provide a statistical analysis of the service market by number of vessels in service and revenues, both historically and forecasting over the next five years. As always, COMSYS bases its information on primary research and builds from the ground up. The COMSYS Maritime VSAT Report 2nd Edition is provided in PDF form and includes:

- Current VSAT penetration by operator and maritime segment type by number of vessels and revenues.
- Competing technologies to VSAT.
- Analysis of the stabilised VSAT antenna manufacturers, production, technology trends, pricing, market shares and revenues.
- Size of the maritime market segmented as High-End Commercial; Mainstream Commercial; Fishing; Leisure; Military & Government; and, Inland Waterways.
- Available and addressable markets for stabilised VSAT services.
- Market drivers and inhibitors.
- Five year "Most Likely" and "Optimistic" forecasts by number of vessels and revenues by maritime segment.
